

ARCHYI.

ARCHYI.

FOR INSPIRATION.

For over four decades, Bi-silque has mastered the craft of developing and manufacturing visual communication products. This journey naturally evolved into a more ambitious purpose: creating a high-end label that brings together deep expertise in office solutions with a refined design sensibility. ARCHYI. was born from that vision.

From designers and product developers to project managers and marketers, the ARCHYI. team forms a dedicated collective of forward-thinking creators. United by a passion for innovation, we craft collaborative solutions and reimagine the role of workspace products in an ever-changing professional landscape.

The result is a universe of intelligent collections, minimal yet expressive, functional yet artfully detailed. ARCHYI. delivers products that elevate the workspace, transforming not only how people use office solutions, but how they experience them.

ARCHYI.

A brand for inspiring interior projects.

We develop office solutions shaped by intention, efficient by design, refined in form, and created through a thoughtful, sustainable manufacturing process. Our vision extends into the future, giving life to visual communication systems, sound-absorbing pieces, and collaborative furniture that adapt gracefully to any environment or spatial identity.

At ARCHYI., we prove that efficiency and aesthetics need not stand apart. In our world, they coexist seamlessly, each enhancing the other.

Guided by creativity and purpose, we design solutions that honour functionality while celebrating fine craftsmanship and authentic communication. Every detail reflects an understanding of our customers' needs, their evolving workspaces, and the rhythms of contemporary life.

COLLABORATIVE WORKSPACE DESIGN SOLUTIONS

AURORA

INSPIRATIONS

BOSCO

Inspired by Nature, Moved by Passion

Communication is intrinsic to all living things. It is essential to our existence, to the way we live and work together in harmony.

Nature is the best designer and the greatest teacher. By looking at it more attentively we can learn how to communicate in a fluid and natural way.

With a clear look and feel at the grasp of nature, its powerful, yet delicate details, shapes, colours and textures, we find the right design elements.

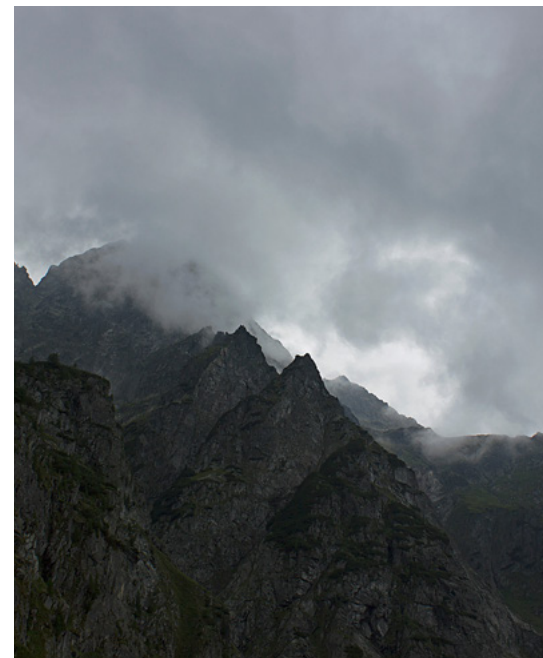

Nature shows us the beauty and strength we can find in silence. And silence can also be a stately form of communication.

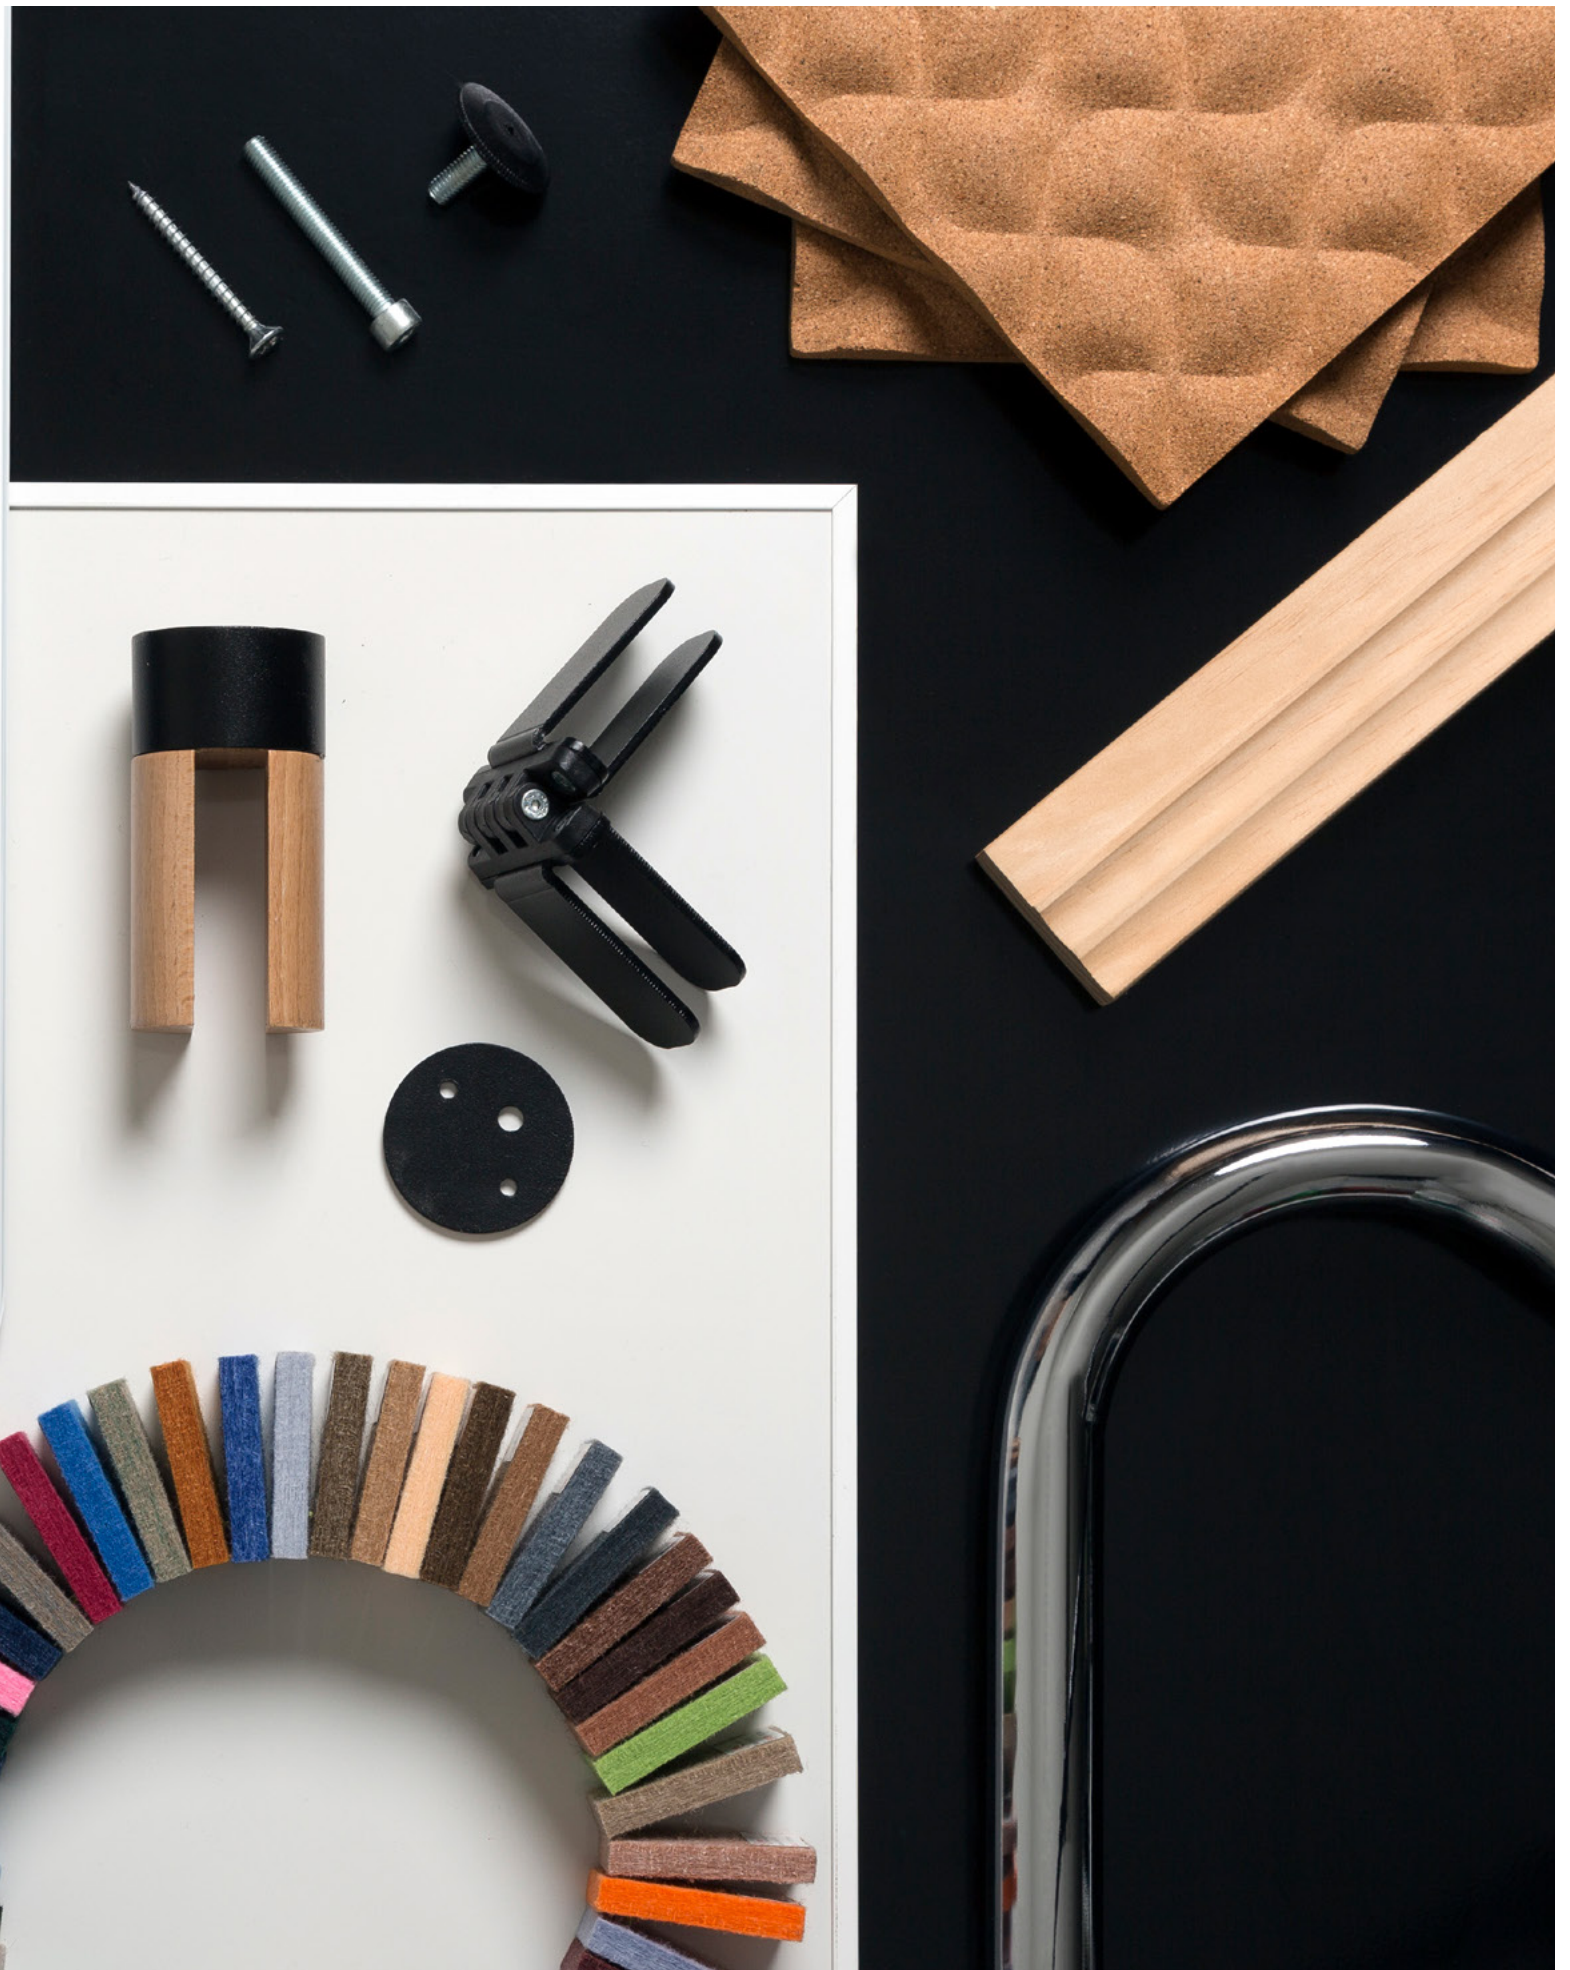

Having present these impelling concepts, our collections are organized under three big guiding inspirations. We hope Scrita, Bosco and Muto will be able to successfully express the essence and history behind each product.

AUROLA

INSPIRATION

**“LIGHT IS THE FIRST OF PAINTERS.
THERE IS NO OBJECT SO FOUL
THAT INTENSE LIGHT WILL NOT
MAKE BEAUTIFUL.”**

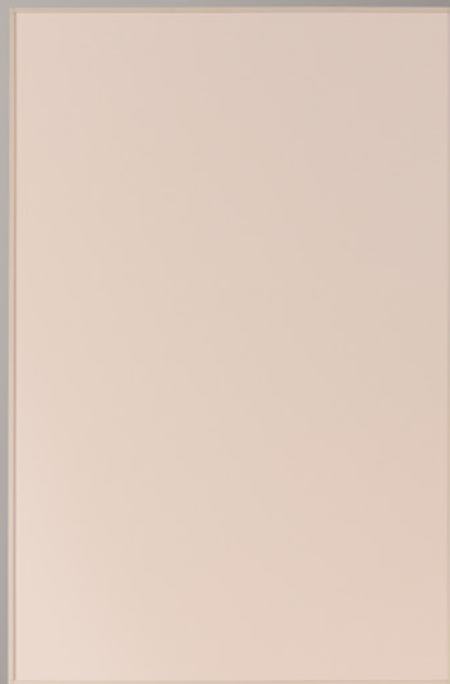

Ralph Waldo Emerson

This is Aurora.

The embodiment of transformation—a meeting point between light and shadow, where ideas emerge and take shape. Inspired by the ethereal beauty of the first light breaking through darkness, this collection invites clarity, focus, and renewal into modern workspaces. It is a celebration of transitions: the shift from chaos to harmony, from isolation to connection, and from distraction to purpose. Aurora is more than a collection, it is an experience designed to guide you toward moments of brilliance and creativity.

With flowing colours and radiant surfaces, Aurora draws on the soft glow of dawn to create spaces that balance energy and serenity. Each element is designed to inspire - a conduit for fresh perspectives and collaborative breakthroughs.

GLASS REVOLVING BOARD STAVO

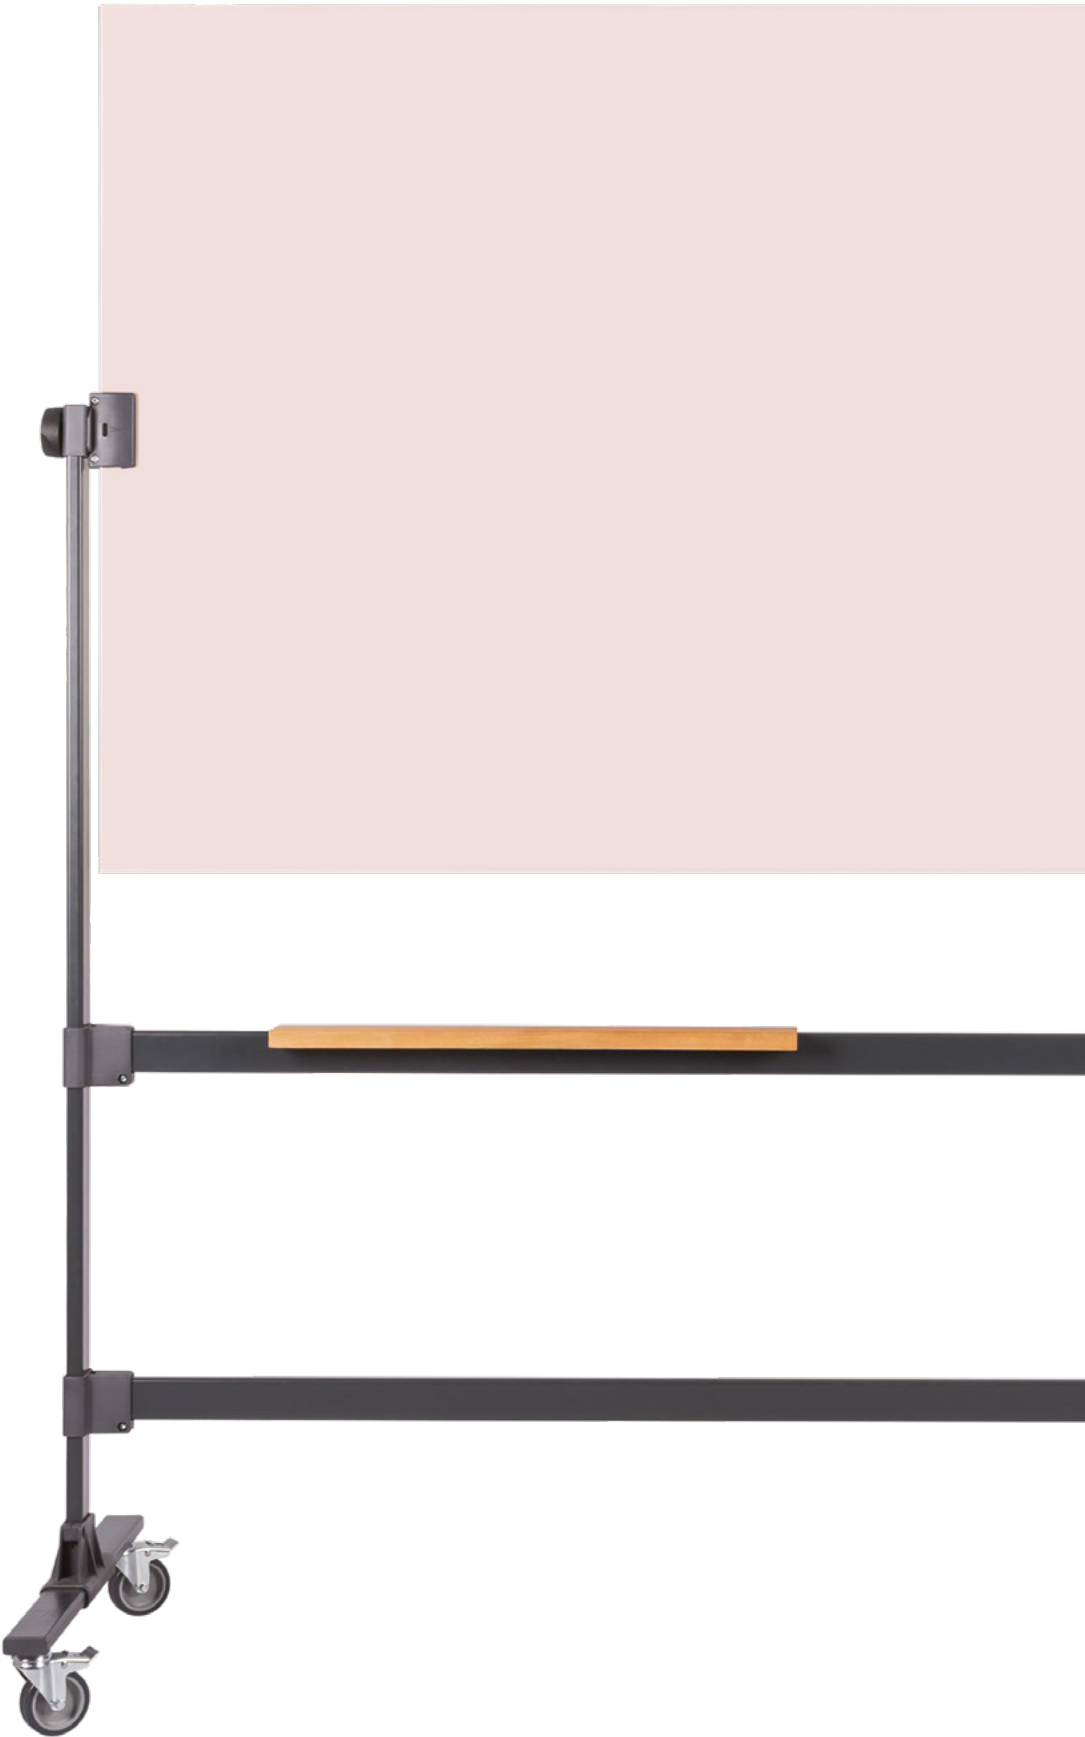

A sculptural presence in motion, the Glass Revolving Board Stavo inspires fluid thinking and collaboration. Its double-sided tempered glass and frameless silhouette offer a limitless canvas for evolving ideas. The anthracite aluminium frame adds quiet strength, while colour-tinted surfaces, guided by colour psychology, evoke calm, creativity or focus.

- High performance double-sided coloured magnetic glass surface, with lifetime warranty
- Curated tones to inspire focus, calm, or creativity
- 8mm tempered glass for strength and lightness
- Frameless design for pure, distraction-free expression
- Anthracite aluminium structure with minimalist elegance
- Includes wooden tray and black marker for refined utility
- Easy to assemble

Persistent creativity will not be governed by the clock; exceptional ideas don't wait for appointments; compulsive inspiration knows no physical bounds. We see the potential for more effective communication all around us - developing dry-erase products for active collaboration that set your ideas free and enable you to passionately share them with the world, noting your ideas directly on your Furniture!

With discreet lines, and soft expression, this highly functional collection, stands out for its sense and simplicity - being elegant and simple in a way that enables it to fit perfectly different decoration styles and environments.

As homage to our roots, we decided to denominate all the products in this collection with names of the most picturesque Portuguese rivers, mountain ranges and cities.

BOSCO

INSPIRATION

**“THERE IS NO BETTER
DESIGNER THAN NATURE.”**

Alexander McQueen

This is Bosco.

Elegant design influenced and inspired by the modern worker who seeks versatility, mobility, aesthetic and functionality. Created to support collaboration and encourage creativity, Bosco is the ideal choice to add character to any workspace based in the most recent interior design trends.

The Collection is composed by simple shapes and traditional materials, inspired in a handcrafted concept. The combination of superb wood details with other materials will distinctively add a natural yet modern feeling to your project.

Bosco was inspired by the Italian word for wood, forest, set of magnificent and majestic trees, since wood is the starting point, the support basis of our elements, assigning it both stability, natural character and beauty.

MUTO

INSPIRATION

**“SILENCE IS A SOURCE
OF GREAT STRENGTH”**

Lao Tzu

This is Muto.

Improve style while eliminating distractions with our Muto collections. Today’s modern work environment includes many open office spaces which create significant challenges in workspace noise and human capital management.

It is well studied that sound absorbent products in workspaces enhance concentration, productivity as well as both physical and psychological well-being. The inspiration for our collection is the word Muto, which is an Italian word that means “without uttering words or sounds, in a mute manner”. Serving acoustic and aesthetic purposes, Muto products will ensure some privacy in any dynamic work environment. Through great design, our products follow the ultimate interior design trends – large open spaces – fostering creative collaboration while creating sub-optimal acoustic environments. Desk dividers, free-standing screens, wall or hanging acoustic panels will create a balanced and pleasing layout that reduces unwanted noise in all types of interiors.

The development of the Muto collections ensured the most stylish design options while also being simple to install, flexible and eco-friendly.
